PROFESSIONAL SUMMARY

AI Software Engineer with 1.5 years of experience developing AI-driven systems using Python, Generative AI, LangChain, Flask, and full-stack technologies. Proven ability to implement prompt engineering, integrate NLP models, and optimize systems using RAG architecture and context engineering. Skilled in building efficient pipelines using AI tools and workflow orchestrators. Strong communicator with global collaboration experience in agile teams.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, Node.js, Java, SQL, Bash
- AI/ML Technologies: Generative AI, Prompt Engineering, LangChain, RAG, NLP, CrewAI
- Frameworks & Tools: Flask, FastAPI, React.js, Celery, Redis, Git, Docker, GitHub, n8n
- DevOps & Practices: Agile, DevSecOps, Unit Testing, REST APIs, Version Control
- Databases: MySQL, SQLite
- OS: Linux/Unix, Windows
- Soft Skills: Analytical thinking, time management, collaboration, communication

PROJECT EXPERIENCE

GenAI-Driven Blood Report Analysis

Tech Stack: Python, FastAPI, Celery, Redis, SQLite, LangChain
- Designed a GenAI-based backend service to extract diagnostic data from blood reports.
- Applied prompt engineering with NLP pipelines and background task orchestration.
- Used LangChain to ground AI outputs with reliable context.

Asynchronous File Upload System

Tech Stack: React.js, Flask, SQLite
- Built full-stack app for real-time file tracking and backend storage.
- Integrated clean frontend with Flask API for scalable I/O.

Student Appointment Management System

Tech Stack: Java Servlets, HTML, JavaScript, MySQL
- Developed a scheduler platform for student-teacher appointments.
- Implemented role-based access and data persistence.

PROFESSIONAL EXPERIENCE

AI Data Trainer – Google Gemini Project

Invisible Technologies | Mar 2024 – Mar 2025 (Remote)
- Delivered 50,000+ annotated data samples for GenAI and NLP models.
- Optimized feedback loop for context validation and quality control.
- Participated in remote global team stand-ups and sprint planning.

Freelance Full Stack Developer

Outlier AI | Aug 2024 – Jul 2025
- Built high-performance Node.js + React-based real-time chat platform.
- Focused on modular design and minimal latency architecture.

EDUCATION

B.Tech – Computer Science & Engineering
Chandigarh University | Aug 2020 – Aug 2024
- Specialized in AI, Cloud Systems, Software Engineering, and Web Development

CERTIFICATIONS

- Prompt Engineering with LangChain – Udemy
- Blockchain Development & Smart Contracts – Internshala
- Software Testing – NPTEL
- AWS Cloud Practitioner (In Progress)

ADDITIONAL INFORMATION

- Immediate Joiner | Available for Indore-based hybrid/full-time role
- Strong cultural adaptability and experience in multinational teams
- Committed to building sustainable and intelligent AI software solutions
- Comfortable with cross-timezone collaboration and rapid task switching
